

Thank you so much for your very generous donation of scrubs to the Alternative Service Break Program with the Center for Student Leadership, Ethics, and Public Service at NC State. The ASB Program provides NC State students the opportunity to participate in dynamic volunteering experiences both domestically and abroad. Your kindness will provide 16 students with the support needed to serve the people of Chontapunta, Ecuador. There the students will have the opportunity to gain valuable hands-on experience with global health and the medical field. Not only will your donation impact the lives of these students, it will impact the lives of the many people they will serve.
